

THE UNIVERSITY OF WISCONSIN
COLLEGE OF AGRICULTURE

Madison 6

DEPARTMENT OF GENETICS

November 20, 1952

*NOT sent.
The money is probably
too subtle.*

Mr. Albert E. Waugh
Provost
The University of Connecticut
Storrs, Conn.

Dear Provost Waugh:

Thank you for your letter of November 15. I am gratified to be considered a candidate in succession to the eminent scientists who have worked in genetics at Storrs in past times.

You will not be surprised if I reply that my interest in the position will depend on information on its details that has not yet been provided, or, perhaps, formulated.

You can probably learn more about me, on the other hand, from the persons named below. They will (I hope) be optimistic in their replies, but can provide necessary information or further references. Please let me know if additional references from me would be desirable:

E. L. Tatum
Professor of Biology
Stanford University
California

F. J. Ryan
Professor of Zoology
Columbia University
New York 27, N.Y.

T. M. Sonneborn
Professor of Zoology
Indiana University
Bloomington, Indiana

I enclose a bibliographic list and a curriculum vitae. These were prepared for another purpose but will suffice for the present, I trust. If not, please notify me further.

Yours sincerely,

Joshua Lederberg
Associate Professor of Genetics
